

# The Wittenberg Management Portfolio

## Portfolio Planning

It is your responsibility to seek assistance in portfolio development. You are encouraged to work with your adviser to select a post graduation objective for your portfolio and develop a portfolio development plan. Part of the learning which occurs in portfolio development, is the project management needed to successfully execute your portfolio development plan.

The department offers several **types of assistance** to guide you in the Management Portfolio process:

- **Portfolio Guidelines on the University Network or the Management Portfolio Moodle** site
  - should be your first source of factual information on the portfolio requirements and process
- Your Management Department advisor
  - should be your first source for interpretation of the guidelines to your personal situation
- **FAQ on the Management Portfolio WebCT** site
- **Portfolio Discussion Forums** on specified topics (watch the WittCAM bulletin board and the Management Portfolio WebCT site for times)
- **Distinguished portfolios** from the preceding year (available in WittCAM)
- **E-mail updates and announcements** from the staff of WittCAM.
- **Posted announcements** on the WittCAM bulletin board.

<b>Portfolio Discussion Forums</b>		
<b>Topic</b>	<b>Date</b>	<b>Faculty Moderator</b>
<b>What is an Element and what is an Element Analysis?</b>	Tuesday, September 12, 2006 4:00 p.m. Carnegie 305	Professor Pamela Schindler
<b>What is an Element and what is an Element Analysis?</b>	Wednesday, October 6, 2006 7:00 p.m. Carnegie 305	Professor Wayne Maurer
<b>Your Portfolio Oral</b>	Wednesday, Nov. 1, 2006 4:00 p.m. Carnegie 305	Professor Ron Lucchesi
