

Young Women in Science Academic Camp **2009**

July 6-10, 2009

YOUNG WOMEN in SCIENCE (YWS) is designed to advance Science, Technology, Engineering and Math (STEM) skills for young women, as well as provide hands-on project-based learning experiences in a creative team atmosphere.

YWS helps young women entering grades 6 through 9 learn about exciting opportunities available to them in STEM careers, allowing them to work as a team on practical and innovative projects using the latest computer technology and lab equipment. YWS also introduces the students to women working in STEM career fields.

Application Procedure

The application can be accessed through Wittenberg's web site at

www.wittenberg.edu/sce

Applications are due by May 4, 2009.

The \$150 program fee includes lunches, a camp T-Shirt and STEM field trips.

Scholarships are available.

For more information contact the School of Community Education, Wittenberg University, Springfield, OH at (937) 327-7012 or visit the website at www.wittenberg.edu/sce.
